

Welcome to the 2010 *Hawaii Business* Top 100 Realtors list, based on total sales volume for transactions that closed in 2009. We ranked the top 25 on this page and listed all 100 alphabetically on the following pages. The accounting firm Grant Thornton LLP compiled the list using MLS data provided by the Honolulu Board of Realtors, the Realtors Association of Maui, and Hawaii Information Service.

The criteria we used:

- Only MLS transactions in Hawaii were counted;
- Only residential sales were counted, but land-only and multifamily sales were not;

- New property sales were not included;
- No original or new development sales were counted;
- Primary listors received full credit for the transactions; co-listors did not receive credit;
- Realtors were contacted and asked to exclude sales in which they did not take a primary role in completing;
- Each side in a transaction - both the seller's agent and the buyer's agent - were credited with the full selling price of a home. If a Realtor represented both buyer and seller, that agent was credited with twice the selling price.

Top 25 Realtors

RANK	AGENT	FIRM	ISLAND	TOTAL SALES
